AIRDOGS

The NFT collecion of 9001 balloons

Launching in the solana cryptospace for **5 SOL**

PRESALE 15th SEPTEMBER

9001 Unique AIRDOG designs

This flying balloons NFT collection is flying inside the solana blockchain so high. All this dogs escaped from earth and the most rare are the highest ones!

They were just living a colourful live until they started feeling lighter and lighter until they started flying higher than the average starting their journey to enlightment. They started rolling around and changing styles until they got to pro skater level and experimented a reckless life. Between flaving and tricks they got to flung pilot level,flying around with the dog pers of god, the SAINT BALLOON. **After that they just exploded...**

"All this dogs just escaped from earth and the most rare are the highest ones!"
